

# VMax<sup>®</sup> V2 vs. Dyson Airblade<sup>™</sup> dB

VMax V2 is the Best of All Worlds

VMax V2 lives up to its name and takes down the competition with its quieter operation, fast dry time, wider drying cavity, superior sanitation and energy efficiency. (Pause to take a breath.) There's no question in comparison. VMax V2 blows the Dyson Airblade out of the restroom.

## The VMax V2 Edge

- Design uses up to 40% less energy without sacrificing performance
- Water collection reservoir prevents water dripping on the floor
- Quieter operation avoids distractions in sound sensitive areas
- Wider angled drying cavity promotes better ergonomics and sanitary touch-free use
- HEPA filter removes up to 99.97% of pollutants, including bacteria and viruses 0.3 microns or larger
- LED display signals when the filter should be changed or the water reservoir should be emptied
- Brushless DC motor helps extend service life
