

# VERDEdri<sup>®</sup> vs. Xlerator<sup>®</sup>

VERDEdri has the Upper Hand

Don't call it a comeback. VERDEdri is the long-standing leader in greater performance, while using less power. When matched up with Xlerator, VERDEdri uses less energy (even at high speed), delivers flexible operation, operates quieter, allows for longer service life, easier maintenance and exceeds the industry standard in sanitation.

## The VERDEdri Edge

- ADA compliant out-of-the-box installation requires no recess kit
- Extended life motor maximizes service life and minimizes maintenance downtime
- Efficient single port nozzle is effective and delivers quieter operation
- HEPA filter comes standard, so sanitation isn't a question
- Universal voltage easily installs to any supply circuit (120-240V)
- 2 adjustable speed options cater to varied environments

	VERDEDRI	XLERATOR
Surface Mounted ADA Compliant	Yes	No
<b>AIR PERFORMANCE / DRY TIME</b>		
Dry Time	12 seconds	8* seconds
Air Velocity	225 mph	215* mph
Air Flow	64 cfm	67* cfm
<b>POWER ENERGY CONSUMPTION</b>		
Power Consumption	950 watts	1490 watts
Universal Voltage	Yes	No
Energy Consumption	3.2 Wh/use	3.7* Wh/use
Extended Life Motor with Replaceable Brushes	Yes	No
Sound Level	87 dBA	Not published
HEPA Filter	Yes	Available with additional cost
Antimicrobial Protection	Yes	No
Ingress Protection	IPX24	IPX3

*\* applies to models with standard 0.8" nozzle; models with noise reduction 1.1" nozzle have longer dry times / higher energy consumption.*

*Xlerator is a registered trademark of Excel Dryer, Inc.*

*Data was attained for this comparison sheet published August 2018.  
Findings are subject to change with emerging technologies.*
